

HP-UX Administrator (M/W)

STERIA is looking for experienced *HP-UX Administrators* for a client in the Public Sector.

Your mission:

You will be a member of the new Steria Benelux Development/Skill centre, dedicated to J2EE technologies and application servers.

You will be integrated into an international project for the European Institutions, involving team members from Steria Europe (Steria Spain, France, Benelux, Switzerland, Germany, etc.).

You will manage, operate and will be in charge of the monitoring of HP-UX servers.

You will also provide customer support, trainings and participate in their preparation.

You will coordinate test and write the technical procedures.

Your profile:

You are a Computer Science (or related domain) graduate.

You have a good general background of computer science and information systems.

You have experience in HP-UX administration (min. 3 years), MC Service guard, Logical Volume. Manager and HP Data Protector.

You have knowledge of XP SAN and Windows Server.

Knowledge of J2EE Server (Weblogic), Queuing System and HP Open View is an asset.

You are open minded and have good communication skills.

You have a good level in written and spoken English.
